

AUDIO TRANSFORMERS - PC MOUNT

Description:
Triad Magnetics produces a wide assortment of TRIAD audio transformers for use in printed circuit designs. These transformers fill a broad application spectrum in the audio industry. TRIAD audio printed circuit transformers are used in line matching, telephone coupling, pulse trigger, driver, interstage, output, isolation and input applications.

Specifications:

Frequency Response Ranges: 200 - 15,000 Hz
Impedance Matching: 10% over freq. range.

TECHNICAL NOTES:

1. Plug-in terminals are spaced to provide fixed mounting centers.
